Neighborhood Watch Report
October, 2020

The Neighborhood Watch meeting for the city was held on ZOOM. It is hoped that they can again be held in person by January 2021.

At the moment, the Volunteer Program is not happening right now, so if you are leaving on vacation please notify your neighbors so they can be on the lookout.

The Front Desk and City Hall opened this past Monday, October 5th.

The Citizen's Police Academy will resume Spring 2021. You can get information from the police department on social media sites and http://nbpd.org/programs/citizens/

The overall picture for the city on crime is as follows:

- Residential Burglaries were down 22%
- Garage Burglaries were up 120%
- Car Burglaries were down 10%
- Auto Theft was down 6%
- Bike Theft (primarily down on the Peninsula) was up 32%

With most people working from home during this pandemic, unsecured garage doors and unlocked doors from garages into homes have become a big problem. They reminded us again to not leave anything of any value in your car if it is parked on the street and lock it!!

We must always be on alert as the holiday season approaches for thieves looking to steal packages from front porches.

Our neighborhood is doing very well comparatively speaking - so keep up the good work.

Pat Puich
Neighborhood Watch Committee
